## The Brickhouse Kitchen & Bar

*At the Brickhouse, our philosophy is simple; we want to serve you the best, local, handcrafted food that Prince Edward Island has to offer. Food is a way of life here, from the farmers nurturing their crops and livestock, to the fisherman, tirelessly working to bring the freshest fish and seafood from the ocean to our tables. At the Brickhouse, our food is our story; you can see it in every plate we prepare and every bite that you savor. Here we are not only supporting local, but also ensuring the sustainability of all that the Island and its surrounding waters have to share with us. It's an experience you will never forget, one we hope that you will take with you [6 minute walk]*
